

Solutions for Your Clients

How we can help you

Whether you are an attorney, financial planner, or tax advisor, Austin Community Foundation can assist you and your clients structure tax-wise gifts that carry out their wishes to create an enduring legacy. We add our expertise to yours to ensure that your client makes educated decisions while selecting from a full range of options.

For most of your clients, philanthropy is an important part of their lives—they may give to their alma mater, faith community and to local, national and even international charities. Many may also value volunteering in their community in hands-on roles or as board members. But when they meet with you, they are primarily focused on gaining your expertise to protect and extend their assets and you are focused on providing that. What if you could help your clients set philanthropic goals while still protecting their assets?
